SKILLS

Language: HTML, CSS, Python (Intermediate), R
Simulation software: MATLAB, ARENA
Modelling software: Autodesk Inventor, Maya
Frameworks: Flask, Django, Bootstrap
Development tools: Git, Visual studio code, Command line
Soft skills: Time management, Communication, Analytical ability, Problem-solving
Operating system: Windows

PERSONAL PROJECTS

- Full stack development using python Django (July, 2020) - https://kolawoleikeoluwa.pythonanywhere.com/
- Data Science with python, Titanic Disaster Datasets (May, 2020) - https://github.com/Kolawole-Ikeoluwa-Joshua/Titanic-Data-science

- Backend development using python Flask (Apr, 2020) - https://github.com/Kolawole-Ikeoluwa-Joshua/resourceApi
- Linear and Logistic Regression Models in R (Jan, 2020)
- Iris Species Predictor Machine Learning Application (Dec, 2019)
- Wireless network intrusion detection mechanism using neural network (Nov, 2019) - https://github.com/Kolawole-Ikeoluwa-Joshua/WNIDS
- Bitcharge Front-end Design (Nov, 2018) - https://kolawoles-project.webflow.io/

CERTIFICATIONS

- Google Analytics Individual Qualification (IQ) test (Jun, 2018)
- Global Management Challenge Competition (July, 2019)

HONORS AND AWARDS

Best graduating student in Technical Drawing   2014

LANGUAGES

English, Yoruba

ACTIVITIES & INTERESTS

Robotics, Artificial intelligence, Health and Fitness, Travelling, Data science
